JVitorbs

## Summary

Web Developer and Researcher with experience in web interfaces, data analysis, and environmental monitoring applications. Skilled in **Python, UX/UI, React JS/TS, Next.js, Node.js, JavaScript, Docker, Git, and CI/CD**. Currently an **Undergraduate Research Fellow at INPE**, working at the intersection of computer engineering and atmospheric sciences. Practical experience in **international collaborations (NASA/SHADOZ)**, scientific instrumentation, and software development.

## Skills

Programming Python, JavaScript, PHP, CSS, Git, Docker, CI/CD

Web/UX React JS/TS, Next.js, Node.js, Front-end Development, User Experience Design, Graphical Interfaces

Data Supabase, Prisma, SQL

Languages English (Full Professional Proficiency), Portuguese (Native), Spanish (Intermediate), French (Basic)

## Experience

Jan 2025 – **Software Development Volunteer, Santos Dumont Institute (ISD) – IINELS**, Natal, Brazil

- Development of software solutions applied to **neuroengineering**.
- Support in research and innovation projects in computational neuroscience.
- Volunteer contribution to digital solutions supporting patients and health research.

Sep 2023 – **FullStack Developer (Undergraduate Research Fellow), National Institute for Space Research (INPE)**, Natal, Brazil

- Participation in ozonesonde balloon launches in collaboration with NASA's SHADOZ project.
- Development of applications for environmental data processing and visualization (Website).

Mar 2023 – **Project Designer, Federal University of Rio Grande do Norte (UFRN)**, Natal, Brazil

- Sep 2023 ○ Aero-thermo-structural design of a scramjet demonstrator.
- Mechanical Designer role (CAD modeling, structural analysis, prototyping).

Oct 2021 – **Tutor, Federal Institute of Rio Grande do Norte (IFRN)**, Natal, Brazil

- Jan 2022 ○ Tutoring and academic support in Mechanical Maintenance.
- Technical support in laboratory practical classes.

## Education

2022 – 2025 **Bachelor's Degree in Science and Technology, Federal University of Rio Grande do Norte**, Natal, Brazil

2018 – 2021 **Technical Degree in Mechanical Engineering, Federal Institute of Rio Grande do Norte**, Natal, Brazil

## Projects & Research

2023 – **Comparative Study of Diffuse Solar Irradiance Measurement Methods** – Ongoing research at Present INPE applying statistical and computational methods.

2023 – **Cooling of Photovoltaic Panels** – Experimental project on thermal management of solar panels. Present

2024 **Ozonesonde Data Processing Software** – Interface development using the Vaisala MW41 system.
